Dear Parents/Guardians of P3 Confidence

WESTWOOD
PRIMARY SCHOOL

After-School Project Work cum ICT Baseline Standard Literacy Programme in Term 1

As part of our efforts in developing ICT literacy in our pupils, we are pleased to inform you that a 5-lesson ICT Baseline Literacy Programme will be organized for all P3 pupils in Term 1.

The Baseline ICT Standards define the basic level of knowledge, skills and values that Singapore pupils need in order to fully benefit from a curriculum enriched with ICT, and eventually thrive in a technology-driven society. On top of that, to make the ICT skills learnt relevant and meaningful to our pupils, pupils will be applying these skills into doing a presentation for their Project Work.

The Project Work will require the pupils to carry out research on how they can take care of pets. Pupils will make use of what they have learnt in Science (Diversity of Living Things), English (selected Stellar Big Book) and ICT Baseline lessons to help them understand the needs of a pet and what they should do to care for them. The details will be given in the Project Work Journal that the pupils will be receiving.

Our ICT Baseline Standard Literacy Programme is aimed at every pupil in Westwood being equipped with the fundamental ICT skills so as to be a future-ready, anchor-steady individual. Lesson focus is as shown below:
