

WWPS 013a / 2017

10 January 2017

Dear Parents/Guardians,

EXCELLENCE 2000 (E2K) SCIENCE PROGRAMME SINGAPORE 2017 (PRIMARY 4)

1. The Gifted Education Branch, MOE, is working with our school, Westwood Primary School, to start an enrichment programme to cater to high-ability learners in science in primary schools.
2. The E2K Science Programme Singapore is a science enrichment programme for upper primary pupils who demonstrate interest and ability in science. The programme aims to develop scientific inquiry process skills among high-ability primary pupils in Science, as well as nurture other important 21st century competencies such as resilience and resourcefulness, critical and inventive thinking, and effective communication skills.
3. Pupils learn Science by going through the same process that scientists use to generate knowledge in Science. Just as scientists make mistakes in the real world, pupils are allowed to make mistakes in E2K and teachers help pupils to learn from the mistakes. Through collaborative learning and guidance provided by the teacher, pupils practise scientific thinking and reasoning, develop confidence and independence in carrying out scientific inquiry as well as scientific habits, attitudes and dispositions.
4. The E2K programme is delivered in the form of weekly 2-hour sessions. As the sessions for the most part take place after school hours (**Monday, 2.00pm-4.00pm**), we need commitment on the part of your child, as well as support from you as a parent to make the necessary transport arrangements as there will be no school buses available on those days at 4.00pm. Please refer to the dates of the training sessions for the year.
5. Feel free to get in touch with me via my e-mail address, naseema_beevi_abdul_rehim@moe.edu.sg should there be any further queries.
