**WESTWOOD**  
PRIMARY SCHOOL

Dear Parent/Guardian,

**Vegetable Planting Programme for all Pri 4 students**

As part of our pupils' holistic education in Primary Four, the school has planned a Vegetable Planting Programme.

Different pupils will be scheduled every term to plant vegetable seedlings which will be harvested at the end of four weeks. Through the planting programme, pupils discover scientific concepts via hands-on experiences. They will understand the importance of plants in our ecosystem. Not only will they be responsible when caring for plants, they will understand about the cause-and-effect relationship through studying the factors that affect plant growth. Pupils will also develop self-confidence, teamwork and cooperation through the activity. Subsequently, the vegetables will be donated to suitable beneficiaries.
