

Revive the Future

Transforming Waste into opportunity

Both my brother, Ravier, and I marked the end of our primary school journey with a heartfelt initiative that left a lasting impact. Together, we embarked on the meaningful task of collecting old textbooks, uniforms, and other pre-loved materials from various levels across the school. The process was both meticulous and rewarding as we sorted and packed these items with care, ensuring they would find a new purpose in the hands of those who needed them most. This effort not only breathed new life into these resources but also made a small yet meaningful contribution to reducing our carbon footprint.

The overwhelming response we received was truly humbling, as numerous parents expressed their heartfelt gratitude. Beyond the immediate impact, this initiative became a special opportunity for our family to come together over a shared mission of kindness and purpose, strengthening our bond through this collaborative act of goodwill.

We are deeply grateful to Mrs. Enda Chan for her invaluable guidance and encouragement, which played a pivotal role in bringing our vision to life. We also extend our heartfelt thanks to the Parent Support Group (PSG), whose unwavering dedication and generous contributions of time were instrumental in making this initiative a success. Their selflessness and community spirit truly embodied the essence of coming together for a greater good.

Best Regards

Rainier & Ravier Tan (6 Gratitude 2024)
